**GOVERNMENT OF KARNATAKA**

No: SARJE 103 SAEPA 2015

Karnataka Government Secretariat,  
M.S. Building,  
Bangalore, dated:21-09-2015.**NOTIFICATION****Sub: Karnataka State Road Safety Policy-2015****1.0. PREAMBLE:**

The road accident scenario in Karnataka causes a great concern. More than 10000 persons die every year due to road accident. While fatal accidents cause loss of invaluable human life, all accidents cause pain, grief and misery as well as economic loss. The increasing number of accidents, loss of lives and resources necessitate the state Government to frame policy on Road Safety.

The Government of Karnataka is keen to take concerted measures to control the incidence of road accidents and ensure safe travel for all road users. Accordingly, the Government of Karnataka feel the need to formulate and enunciate this separate Road Safety Policy which will act as a guide to the concerned stake holder Departments and to the public.

**2.0. VISION:**

A safe road network for all road users, with priority to pedestrians and cyclists, to achieve zero road accidents in the long run.

**3.0. MISSION:**

Reduce road accidents by 25% and fatalities by 30% by 2020.

**4.0. OBJECTIVE:**

- Improving road engineering and design, increasing awareness, providing emergency care and strict enforcement on road.
- Design, develop and implement an Accident Information System to enable crash management in the State in the next two years.
- Provide a framework for undertaking coordinated actions and corrective measures by all concerned stake holder Departments.
- Provide the basis for accountability, evaluation, funding and research.

- Achieve 15% reduction in fatalities and injuries caused due to road Accidents in next 3 years.
- Supporting and building capability by working with the road safety community with better tools to support Road Safety programs.

#### **5.0. IMPLEMENTATION STRATEGY:**

Road safety is a multi-disciplinary problem and therefore it is important that interdepartmental coordinated approaches are required for sustainable reduction of road accidents and fatalities in the state. For effective implementation, Road Safety Council has been formed in Karnataka vide Gazette notification No. SARIE 165 SAEPA 2013, dated the 28th November, 2014 under the Chairmanship of the Minister for Transport, Karnataka. The Council comprises members from Transport, Home, Public Works, Health & Family Welfare, Education, Urban development, Urban land transport, Excise, Town planning Departments along with representatives from voluntary organizations. The Council advises on all matters pertaining to the following:—

- Manage, coordinate and commission all activities regarding road safety in the state.
- Planning and co-ordination of policies and practices.
- Standards of safety in the road transport sector.
- Formulate and recommend road safety programs for implementation
- Suggest areas for research and development to improve safety aspects.
- Monitor and control the road safety measures undertaken in the state.

Apart from the above, District Road Safety Committee has been formed in each District under the Chairmanship of Deputy Commissioner and District Magistrate as Chairman for implementation of the Road Safety Schemes.

#### **6.0. ACTION:**

Government of Karnataka will create an effective institutional mechanism to strengthen the Road Safety measures in the State and provide necessary support structures to enable each institution to play its role effectively. Some of the key actions to be undertaken are as follows:—

### **6.1. Strengthen Road Crash Database System:**

Data systems requires a comprehensive assessment of road safety performances. The effective database system helps other stakeholder departments to develop Road safety programs in an effective manner.

The Karnataka Police, through its State Crime Record Bureau (SCRB), collects crash data on number of accidents occurred, accidents severity, types of vehicle involved, causes of accidents etc. However, the crash data collected presently is not very useful in understanding the general pattern and trends of crashes as they do not contribute to the holistic analysis of crashes and further development of effective road safety interventions.

As such crash data is key source of information for Government, Citizens, planners, facilitators and researchers. Government of Karnataka is working towards development of database management system. Following will be the key activities to improve the database.

- Create a database to fit the requirements of Home, Public Works, Transport, Health & Family Welfare, Urban Development Department and Research Institutions.
- All Trauma Care Centers, District Hospitals, 103 and 108 Ambulance Services to be connected to the database.
- Interfaces to be provided with VAHAN and SARATHI database of the State.
- GIS & GPS enablement for real time tracking.

### **6.2. Safe planning and design of roads:**

The Government will take following measures for proper planning and design of roads:—

- Periodically identify accident prone areas/ black spots on the basis of accident intensity and severity.
- Take corrective actions in the identified accident prone areas and on the identified black spots through proper planning, design and construction techniques.
- Bring a concept of “Self explaining roads” and the “Forgiving roads” in the road network of entire state and implementing the actions such as lane marking, safety sign boards, crash barriers, curve treatments, develop all major junctions with safer treatments etc.

- Remove encroachments and obstructions affecting the full use of roads.
- Construct wayside amenities/service centers on major road network etc. which will result in substantial reduction in road accidents/fatalities.
- Introduce 'Traffic Calming' measures to physically reduce the speed in vulnerable stretches, near schools/ hospitals /markets / other busy community locations.
- Form a Road Safety cell under Transport Department and Road Safety Unit under Public Works Department to carry out the road safety activities.
- To conduct Road Safety Audit mandatorily for all new road construction projects and Road Safety Review for all existing roads which help to take appropriate remedial measures before accident happens.
- Develop a handbook on 'Road Safety Design Guidelines', "Road Safety Audit Field Guide", "Road Safety Review Field Guide", "Black spot Investigation Field Guide", "Traffic Control plans at Road Construction Field Guide" to be used by engineers at all levels.

### **6.3. Safe Driving:**

Driver's error is a major cause of road accident and to address this issue, the Government intends to:—

- Undertake safety and awareness campaigns.
- Enforce fastening of seat belts and wearing of helmets as per statutory rules.
- Issuance of driving licenses from Automated Driving training Centers.
- Issuance of 'Certificate of Fitness' for vehicles from automated Inspection and Certification centers.
- Enforcement to check violation of basic safety requirements, drunken driving etc. and implement deterrent penal provisions including cancellation of driving license for repetitive offence.

#### **6.4. Awareness, Education and Training for Road Users:**

Government of Karnataka will undertake following activities to create awareness and educate Road Users:—

- Make Road Safety education programmes mandatory in schools and colleges.
- Conduct Road Safety awareness training programmes for teachers, parents and citizens.
- Road Safety awareness training to be given to the drivers before the issuance of driving license.
- Organize campaigns and orientation programmes for all categories of road users and make them aware of their respective responsibilities.
- Special emphasis on safety of vulnerable groups like school children, the disabled and senior citizens.

#### **6.5. Enforcement of Safety Laws:**

Government of Karnataka will take appropriate measures to strengthen and improve the quality of enforcement in order to ensure effective and uniform implementation across the State:—

- Upgrade the vehicles with latest equipments/ gadgets to implement effective traffic management and enforcement measures.
- Strengthen the police team conducting Highway Patrolling.
- Enforce spot penalties for overloading of passenger vehicles, drunken driving, non wearing of helmets and non fastening of seat belts.
- Provide continuous training to Traffic Police personnel.
- Introduce Road safety as an agenda in monthly review or quarterly review for all Stake holder Departments.

#### **6.6. Emergency Medical Services for Road Accidents:**

The key principle is to provide first aid that will stabilize the injured during the 'GOLDEN HOUR'. Government of Karnataka has introduced 103 and 108 ambulance services in Karnataka. Provision of ambulances with

driver, helper and pharmacist/paramedical staff and establishment of trauma care centers along the NHs/SHs will be made in Karnataka:—

- Provision for Trauma care centers, Ambulances and Cranes at reasonable distance gaps on NH/SH for extending immediate clearance of road blockades at accident sites.
- Develop fully equipped Trauma Care Centers along the NHs and SHs with lifesaving equipments and facilities.
- The Patrol Cars, crash rescue vehicles (CRV's) & Ambulances to operate synchronously as a “Crash Rescue Unit” through a central control and coordination system.
- Promote involvement of private practitioners and hospitals in Emergency Medical Response (EMR) and trauma care.
- Maintain the access roads to each emergency care hospital pothole free and free from roadside parking or obstructions.
- Emergency vehicles to have preferred right on roads, which should be enforced to go to emergency care units of the hospitals as well as trauma care centers.
- Implement cashless treatment for 48 hours in trauma care centers
- Train all commercial vehicle drivers in First Aid trauma care centers.
- Casualty section of all district equipped hospitals to provide Emergency Medical Services to trauma cases.
- 108 ambulances to be placed on NHs and SHs in every 50 KM distance between two identified trauma care units.

#### **6.7. Research for Road Safety:**

The Government of Karnataka will promote research activity in road safety by identifying priority areas, funding of research initiatives and publication of reports in conferences, workshops & websites. The following activities will be carried out by Government of Karnataka:—

- Identify and nominate key institutes to carry out road safety research in the State.
- Prepare priorities for research areas following an in-depth review of road safety data available from Road Crash Database System.
- Strategy for implementing Road Safety initiatives in the State.

### 6.8. Strengthening Financial Environment for Road Safety:~

Road Safety measures require enhanced funding support for its sustainability. Government of Karnataka will undertake the following activities to ensure that the outcomes are achieved:-

- Identify measures for augmenting funding for Road Safety.
- Encourage Private participation in the task of raising funds for Road Safety.

### 6.9. Provision of corpus funds:

- Private vehicle carrying an accident victim to a nearest hospital to be subsequently reimbursed by the Health and Family Welfare Department, Government of Karnataka.

By order and in the name of the  
Governor of Karnataka.

**PROCEEDINGS OF THE GOVERNMENT OF KARNATAKA**

**Sub: Protocol for Identification of black spots & Submission of action plan for rectification thereof on State Highways, Major District Roads and Other Roads.**

**Read:1) Karnataka Road Safety Policy of the Government of Karnataka, issued vide SARIE: SAEPA: 2015 Dated: 21-09-2015.**

**2) Letter from the Supreme Court Committee on Road Safety No:24/CoRS/2014/Vol-3 Dated: 09-01-2017.**

**3) Proceedings of the Road Safety Committee meeting held under the chairmanship of Chief Secretary to Govt. on 10-03-2017.**

\* \* \* \* \*

**Preamble:**

The Karnataka state has a total road network length of about 76059 km under the jurisdiction of KPWP&IWTD out of which length of National Highways is 6572 Km, length of State Highways is 19578 Km, length of Major District Roads is 49909 Km. The State Highways and Major District Roads are expected to conform all the required safety engineering features as per the codal provisions. In spite of this road accidents and fatalities are very high in the State.

One of the important reasons for the road accidents is inadequacy in road geometrics or non-fulfillment of the safety standards as per the codal provisions. The need of the hour is to follow a common definition for the Black Spots on the State Highways and the Major District Roads and to have a systematic and time bound program to remove the black spots.

The Karnataka Government has notified the "Karnataka Road Safety Policy-2015" vide Notification: SARJE: 103: SAEPA: 2015 Dated 21-9-2015. The main objective of the Road Safety Policy 2015 of the state is the reduction of road accidents by 25% and fatalities by 30% by the year 2020.

Considering all the above facts, recommendations and directions of the Supreme Court Committee on Road Safety constituted by the Honorable Supreme Court of India and to implement the Karnataka Road Safety Policy-2015, the following standard operating procedure (SOP) & protocol has been designed for identification of black spots, preparation of a time bound action plan for implementing the rectification measure .

Hence the following order:

.....<sup>2</sup>

**GOVERNMENT ORDER NO. PWD 42 EAP 2017, BENGALURU.**  
**DATED: 04-04-2017**

The Government after careful consideration of the directions of the Supreme Court Committee on Road Safety and the Karnataka Road Safety Policy - 2015, has consciously taken the decision to mandate the following standard operating procedure (SOP) & protocol designed for identification of black spots, preparation of a time bound action plan for implementing the rectification measures.

**1. Definition of Black Spot on State Highways, Major District Roads:**

Black Spot is a stretch of road of about 500 m in length in which either (a) five road accidents took place during the last three consecutive calendar years involving fatalities/ grievous injuries or (b) Ten fatalities took place during the last three consecutive calendar years.

**2. Collection, analysis and compilation of Blackspots on State Highways, Major District Roads:**

The First Information Reports (FIR) of the local Police comprising of all accident data showing specific location shall of the Black spot be shared on monthly basis by the concerned IGP to the Road Safety Cell. The Road Safety Cell will transmit the data to the Chief Engineer PRAMC, the head of Road Safety Unit of KPWD&IWTD, through e-mail within 15 days for analysis. The annual accident data received with regards of the black spots are to be analysed by CE PRAMC and forwarded to Government by 31<sup>st</sup> March of the subsequent calendar year in the prescribed formats.

**3. Immediate and Short term measures for alerting road users:**

The PRAMC shall scrutinize all the data, assign unique codes to the Blackspot and forward the same to the concerned Executive Engineer, of KPWD&IWTD Divisions within 30<sup>th</sup> of April every year for necessary action. The Executive Engineer of concerned KPWD&IWTD Divisions shall take immediate cautionary measures at identified black spots for alerting road users as per provisions mentioned in MoRTH Office Memorandum No. RW/NH-29011/2/2015/P&M (RSCE) dated 14th September 2016, which shall be ensured by Superintending Engineer of concerned KPWD&IWTD Circle.

**4. Preliminary inspection/ assessment of the Black spots**

The black spots shall be jointly inspected by a Technical team, comprising SE, PRAMC, EE PRAMC, AEE, PRAMC, concerned Executive Engineer of KPWD Division, an internal Road Safety Auditor from PRAMC and or any other co-opted member if considered necessary by the CE, PRAMC. The

Committee shall examine the black spots for deficiencies related to road engineering design/ construction. The extent of the treatment stretch of the black spot, may be generally limited to 500 m. unless there are exceptional grounds for extending it further beyond 500 m which shall be limited to a maximum length of 1000m. The Committee may consult with local Police personnel in identifying/ determining the reasons and suggestive corrective remedial measures to avoid such repeated road crash/ fatalities.

- 4.1. In case no road related issue (Geometrics of the Road) could be identified, it may be concluded that the accidents may be due to other reasons and not attributable to road (such as mechanical failure of vehicles/ driver's fault or any other reason). In such case, no further Engineering interventions are required and it should be declared so and published through an order.
- 4.2. In case Blackspots which may not require any long-term permanent measures, but require only short term or simple measures like road signage's, markings, speed calming measures or any other short term measures, it should be declared so by an order. These measures should be proposed for immediate implementation by the Executive Engineer of the concerned KPWP&IWTD Division with the concurrence of the team.
- 4.3. In case road related geometric deficiencies causing accidents are identified, it should be clearly ascertained whether sufficient land is available for implementing the remedial measures.
  - 4.3.1. In case land is not available for implementing the permanent remedial measures. Short term measures such as adoption of adequate and proper traffic calming measures, installation of road signage, road markings, Scientific speed breakers, repair of damages or rehabilitation should be proposed, which shall be taken up immediately and completed within 3 months of identification of such black spot. The progress of the implementation of these remedial measures should be reported to CE, PRAMC every month.
  - 4.3.2 The Executive Engineers may follow the instructions of the Secretary to Government, KPWP&IWTD, on direct purchase of land from private parties for initiating proposal for long-term remedial measures on those black spot stretches.
  - 4.3.3 In case land is available for long term remedial measures, proposal along with supporting documents like photographs, survey sketches, drawings and detail estimate should be forwarded to CE, PRAMC for scrutiny and approval.

4.3.4 The Committee shall submit its report to CE PRAMC. The assessment, investigation report of the Committee shall incorporate the location of Blackspots, length of black spot stretch, reason of accidents, proposed remedial measure, and date of such inspection with photographs of such blackspot for better understanding & appreciation. On the basis of above, necessary action for removal of accident Black spots may be taken up by the competent authority.

**5. Framing of proposals and their implementation:**

5.1 The accident black spots sites where long term permanent measures are required should be got surveyed and a base map is to be prepared giving all the road related features, road side features, superimposing the proposed remedial measures on the base map. A Detailed Project Report for executing these remedial measures shall be got prepared by the PRAMC based on the IRC Guidelines.

5.2 The preparation of such proposal including survey, investigations/ preparation of DPR shall be carried out by procuring the services of Consultants or through in-house trained Engineers. The execution of remedial measures after the sanction/approval shall be carried out through the Executive Engineer of the KPWP&IWTD Division.

**6. Feedback on effectiveness of remedial measures taken:**

After the completion of the works for remedial measures, action is to be taken to study the effectiveness of the remedial measures implemented in the form of a post implementation study in a scientific manner. Quarterly and yearly reports are to be prepared by the CE, PRAMC. A consolidated report shall be submitted to the Road Safety Cell every year for three years after the completion of the remedial measures.

By Order and in the name of the  
Governor of Karnataka
